solution

TMI Cares

laboratorymarkets

TMI casework will make a strong visual statement about your facility's commitment to excellence. Scientists, technicians and assistants will sense warmth, quality, and a concern for detail. Staff will be inspired by a professional environment designed to help them be as effective and efficient as possible. As a single source provider, TMI integrates our casework, countertop and architectural woodwork options to provide a cohesive, functional laboratory environment.

Since 1969, TMI Systems Corporation has been providing AIA Premium and Custom Grade laminate products to institutional markets across the United States. The TMI factories have nearly 150,000 square feet of manufacturing space, and employ some of the furniture industry's leading equipment technology.

Our sophisticated engineering software enables TMI to price, engineer and manufacture a nearly infinite combination of casework products, offering many variables in terms of color, dimensions, hardware selections, materials and construction details.

Endocrinology Lab
Indianapolis, Indiana

experience

As a comprehensive resource for laboratory environments, TMI recognizes the importance of product testing in addition to high quality and functionality. Our casework has been independently tested by an approved SEFA testing lab, demonstrating compliance with recommended practices and surpassing the minimum testing requirements.

Microbiology
Laboratory
Nashville, Tennessee

flexibility

Our casework products feature fixed modular, flexible rail-mounted, and mobile options so laboratory spaces can be reconfigured according to evolving equipment and application requirements.
